## Professional Summary

Full Stack Developer based in Islamabad, Pakistan, currently working at Ark IT Services with extensive experience in .NET development. I specialize in full-stack development, building robust solutions from desktop applications to complex, interactive web applications using .NET, React, Next.js, and MERN stack. My expertise includes ASP.NET Core Web API, Entity Framework, React JS, Next.js, and MERN stack development. I'm passionate about creating efficient, performance-optimized applications that solve real-world business challenges.

## Professional Experience

### Ark IT Services
